

# Kamrun Nahar

Full-stack Software Developer

## PROJECTS

### Superhero Activity Sightings — Java, HTML, CSS, MySQL

Designed and created a full-stack Spring MVC web app that allows users to create, read, update, and delete superhero sightings. Incorporated Spring JDBC templates, JSP's, MySQL database, and spring security that allows users and admins access to different application features.

### Vending Machine — Java, HTML, CSS

Built a vending machine web app using Java, HTML/CSS, and the Spring MVC framework that allows users to insert money, select items, and make purchases. The application provides feedback to the user regarding available inventory and funds.

### Flooring Order Management — Java

Using the concepts of spring dependency injection, spring AOP, and N-tier/MVC architecture, created an application that allows users to create, read, update, and delete flooring orders.

## EDUCATION

### Salesforce Intro Administration Course with PepUp-Tech, NY, NY — Associate Salesforce Administrator

10/19 - 12/19

### LaGuardia Community College TechHire Open Code with Software Guild, Queens, NY — Full-Stack Java Web Development Certificate

06/18 - 02/19

### Brooklyn College, Brooklyn, NY — BA in Speech Pathology and Audiology, Overall GPA: 3.6

1/10 - 12/13

## EXPERIENCE

### Research Foundation of CUNY, Bronx, NY — Assistant Project Manager

09/19 – Present

- Conduct HR activities: process payrolls, recruit, hire, and train personnel.
- Oversee and manage program consisting of 20-25 tutors serving 4,000 tutees/semester.
- Administrate monthly tutor award program to keep tutors and tutees motivated.
- Collect data, organize, analyze, and create digital records of Assessments.
- Monitor budget and allocation of project grant funds.
- Facilitate inter-office coordination and create newsletters and resource lists to distribute to the proper departments.
- Organize and manage email distribution lists for multiple campus-wide projects.
- Conduct outreach as needed to support student success and track progress.
- Create training manuals and educational materials for technical workshops.

### Bound, Manhattan, NY — Lead Web Developer

06/19 – 09/19

- Develop features using JavaScript/React, HTML/CSS, and Firebase to create a user-friendly interactive google chrome extension.
- Collaborate with a small team in a lean development environment to deliver a Minimum Viable Product that meets both business/technical specifications and requirements.
- Participate in product ideation activities and daily scrum meetings.
- Cooperate with UI/UX designer to match visual design.

### Attentive Behavior Care, Bronx, NY — Behavioral Therapist

08/14 – 06/19

- Utilize the principles of Applied Behavior Analysis, discrete trial teaching and backward training, to create custom plans and manage challenging disruptive behavior by replacing it with appropriate, adaptive, and functional behavior for 1:1 behavior-based treatment therapy.
